PRODUCT DATASHEET WTC664

WTC664

(600064)

Active Car Kit for ICOM radios IC-F31. Usable with batteries BP-120, BP-211, BP-210, BP-210N, BP-210FM and CPIB210N. **General Description**

The active Car Kit gives the opportunity to connect an external antenna by the Car Kit with the radio. An additional antenna adapter is required for this (not included). This is to purchase separately . The Car Kit is connected with the lateral connection of the radio, so you can communicate by the supplied handmicrophone. While using your radio in the Car Kit, the usual functions of fast charge and trickle charge are also available. Additional Accessory can be connected by SUB-D socket. The Car Kit is connected to the on-board power supply.

Additional Module AN014 Additional Module AN014

With the AN014 Squelch Module, the WTC664 can be connected to a control console. This Module is to purchase separately. For further informations see here:
