Passive radio charger for your Motorola MXP 600

The WTC2113USB is a robust, passive radio charger for the Motorola MXP600 and ideal for all applications where pure, uncomplicated charging is required. Thanks to its precise fit, the charger supports multiple battery types and provides stable contact – ideal for emergency services, industry, security, and all mobile environments.

Product description

The passive radio charger is small and compact. It provides fast charging and charge retention functions for your Motorola MXP600 radio in your vehicle. The active function is indicated by LEDs. The charging cradle is connected to the vehicle's electrical system. An original belt clip is recommended for secure attachment.
