Desk Charger for MOTOROLA MTP850, MTP830, MTP830S, and MTP830FuG Radios Compatible with FTN6574, FTN4331, and PMNN4351 batteries.

Product Description

This Desk Charger is ideal for mobile command centers at large events. With the option to attach an external antenna without interfering with radio reception, it ensures smooth operation. The BNC connector allows connection to an external antenna. Programming and PEI are possible via the serial port. The charging mount is connected to the vehicle's electrical system and features a serial PEI interface. An additional manufacturer license is required for this.

Product Type: DeskCharger

Radio Manufacturer: MOTOROLA

Radio: MTP830 , MTP850

Connections: Externe Antenne , seriell

We Electrical Input: 85-240VAC, 60W, SELV

We Electrical Output: 9.5VDC, 8W
